April 19, 1969

Dear Harold,

Enclosed you will find the material which you requested. While some of the changes in testimony may not be of much value, where even the most minor changes exist, I have noted them. If you want any further information on any of the testimony, let me know and I will send you the changes present.

The picture made mention to in Volume 26, is not in the Archives, according to Johnson. He states it may have been used in the trial in Dallas, and thus is still in their possession.

What do you think of the John Birch Society? I just recently received a letter from a representative here wanting me to attend one of their presentations. However, due to my ties in the Navy, I was not able to attend the meeting. Are you in favor of them? What is their connection in the case, if any???

Write whenever you can. See you later.

Barry
